## TL;DR

---

I am a highly skilled Full Stack Developer with extensive experience in developing software solutions that meet customer needs. I am proficient in a wide range of programming languages, frameworks, and tools, including React Native, NextJS, Typescript, Postgresql, and more. I have a proven track record of success in building advanced web pages, developing landing pages, integrating and configuring Google Tag Manager and Google Analytics, and developing scrapers with microservices. I am committed to delivering high-quality work that exceeds expectations and drives business growth.

## WORK EXPERIENCE

---

### Full Stack Developer

[2ulaundry.com](https://2ulaundry.com)

**Feb. 2020 – Present**

*Charlotte, NC (Remote)*

Contributed to the development of high-value software solutions that meet customer needs, such as mobile applications and BackOffice for different areas, such as Administration, Customer Service, Marketing, and Operations.

Key Contributions:
