## WORK EXPERIENCE

---

### 2ulaundry.com

*Full Stack Developer (100% Remote)*

**Feb. 2020 – Present**

*Charlotte, NC*

I have contributed to the success of developing high-value software solutions that meet customer needs, such as mobile applications and BackOffice for different areas, such as Administration, Customer Service, Marketing, and Operations.

- Developing the continuous integration flow with Bash scripts and Docker files.

### Rextie.com

*Full Stack Developer*

**Sept. 2018 – Feb. 2020**

*Lima, Peru*

- Developing scrapers with microservices to track the dollar exchange rate in Peru.
- Integrating and configuring Google Tag Manager and Google Analytics.
- Developing landing pages in Angular 6-8.

### Mapsalup.com

*Full Stack Developer*

**May 2018 – Aug. 2018**

*Lima, Peru*

- Developing landing pages in Laravel PHP and jQuery.

### Institutopacifico.pe

*Full Stack Developer*

**Feb. 2028 – Mar. 2018**

*Lima, Peru*

- Developing modules to support podcasts and comments in their administrative CRM system.

### MercadoChevere.com

*Full Stack Developer*

**Jan. 2016 – Dec. 2017**

*Maturin, Venezuela*

- Developing an e-commerce website, including all the frontend and the backend integration with various Restful APIs.

### University UPEL IPM

*IT Assistant*

**Jan 2010 – Dec 2017**

*Maturin, Venezuela*

- Developing a landing page in Angular 1.4 to apply for a promotion degree for postgraduate students.
- Teaching students how to code in PHP and JavaScript.
- Helping teachers to use technology-based tools to teach in classes.
